

SKIP HIRE - TERMS & CONDITIONS CUSTOMER ACCEPTANCE

Please read the following requirements before delivery and before requesting collection of your skip.

1. Prohibited materials

I confirm that I have read and understood the prohibited-materials list below. I will not place these materials in the skip unless SKIPMAN has expressly agreed a separate suitable disposal arrangement in advance.

Asbestos; gas cylinders; fridges and freezers; tyres; paint and other liquids; batteries; oils; hazardous waste; medical waste; fluorescent tubes; and upholstered seating, sofas, armchairs and mattresses subject to restricted or separate disposal arrangements.

2. Access for every delivery and collection

I will ensure that safe, clear access is available for the vehicle and the skip on every delivery and collection. Access must not be blocked by parked vehicles, locked gates, materials or other obstructions. I will notify SKIPMAN in advance of any access restrictions.

3. Level loading

Before each collection, I will check that the skip is level loaded. Waste must not extend above the top edge of the skip. The skip must be safe to lift and transport. I will remove any excess waste before collection.

4. Failed collection charge

A failed collection attempt caused by unavailable or blocked access, an overloaded skip, or a skip that is not safe to collect will be charged at **£120.00 + VAT (£144.00 including VAT)**. A further collection must be arranged once the issue has been resolved.

5. Waste charged separately

Plasterboard, artificial grass, carpets and roofing felt are charged separately, based on haulage and disposal costs per tonne. Please declare these materials before booking so the applicable charges can be confirmed. If they are not declared in advance and are found in the skip, additional haulage and disposal charges will apply.

Customer declaration

I acknowledge the requirements above and agree to ensure that prohibited materials are not placed in the skip, access is available for every delivery and collection, and the skip is level loaded and safe to collect. I understand the failed collection charge and the separate charges for the materials listed above.
